Remy Automotive Hungary LLC.	kovacs.elemer@remyinc.hu

You may have different responses for different "products" supplied to us (which can be Substances, Preparations or Articles according to REACH terminology) and you may need to send a separate sheet for each category of products. Please tick the box(es) for the products covered by this sheet:

Substances       Preparations       Articles

1. We (the supplier) confirm that we understand our obligations under REACH.  
Yes       No
2. If our company is located outside the EU/EEA we will ensure that you, our customer, do not need to act as importer under REACH e.g. by nominating an only representative. We answer questions 3-8 on behalf of our importer/only representative.  
Yes       No
3. The intention is that all substances in the products we supply to you, which require registration, will be pre-registered by us or an actor further up our supply chain.  
Yes       No
4. We will send a list of "products" supplied to you for which there are substances that are not intended to be pre-registered.  
Yes       No
5. We confirm, or have confirmed with the actors in our supply chain, that the intention is to register for your use(s) the substances that we/they pre-register.  
Yes       No
6. By 30 November 2008, we will send you a list of all "products" that contain substances likely to be included in the candidate list (see guidance and tools in step 6.1 of the AIG compliance schedule and REACH Article 57).  
Yes       No       None expected
7. We will send you a list of all "products" that contain substances on the candidate list within 45 days of its publication, or confirmation that there are none (see step 6.3 of the AIG compliance schedule and Article 57).  
Yes       No
8. We will have a dialogue with you and our suppliers regarding safe use and risk management measures (RMMs) for the substances and preparations we supply to you.  
Yes       No       Not applicable

Further comments:

Remy Automotive is continuously reviewing the available candidate list of Substances of Very High Concern (SVHCs). The candidate list currently contains 16 substances, none of which are used in Remy production processes or contained in Remy products above the limit concentration of 0.1 w/w %.
